Breathing Apparatus training:

Overview: This Training Package Unit (MSMWHS216) is designed to deliver information to designated staff working in any industry or workplace. It holds accreditation as an operations and support competency unit for Certificate III in Process Manufacturing MSM30116

It is expected that all persons achieving this Breathing Apparatus training course will be competent to wear breathing apparatus because they are working:

- in a confined space (must also have current Confined space training and valid permit to enter)
- with hazardous gases/vapours/dusts
- in an oxygen deficient atmosphere
- in any other situation requiring the wearing of breathing apparatus.

Course duration

8 hours (1 full day) – includes assessment

Assessment criteria

Assessment is competency based.

The student's performance is assessed on satisfactory completion of the required assignments and workshops (in-class assessment activities).

Students support

One-on-one support is also available on request.

Course delivery

This program is ONLY available through:
A face to face session requiring the completion of 2 main assessment activities:

Part A: Knowledge Questioning (Written & Verbal)

Part B: Skills Structured Activity (Practical Demonstration)

Both of which will be completed on the day of training.

Venue

At your site where we can use your systems and procedures. We use your Breathing Apparatus sets so there would need to be enough for all attendees.

Minimum entry requirements

There are Language, Literacy & Numeracy (LLN) requirements for this training which include:

- Language; The ability to clearly communicate with other workers in a team of BA wearers both verbally and in writing.
- Literacy; Writing is required to the level of completing required workplace reports/forms.
- Numeracy; The ability to calculate the working time of a Breathing Apparatus set, read the instruments and interpret the results as being safe/not safe and to determine the required actions.

The foundation skills are not included as part of the course. AFS recommends a minimum year 10 or equivalent of schooling prior to commencement of the course.

Specific course requirements

- Enclosed shoes and neat casual or work clothing is essential.
- The practical session can be viewed as physically challenging, a certain level of fitness is required.
- Participants to be **clean shaven** as per the Australian Standard.
- Students are required to competently wear BA equipment as part of this course.

NATIONALLY RECOGNISED
TRAINING

Course Outline

Breathing Apparatus training -MSMWHS216 - Operate breathing apparatus

Course Inclusions

Statement of Attainment upon successful completion.

- Partial completion of the following Qualification: - Certificate III in Process Plant Operations
- Course Information Manual.
- Writing materials and all PPE required to undertake the practical exercises for assessment.

Learning Outcomes (Key Elements):
