## Confine Small Emergencies in a Facility:

**Overview:** This Training Package Unit is designed to deliver information to designated staff working in any industry or workplace to confine small emergencies such as fires and small chemical spills as outlined in Australian Standard AS3745.

This unit is delivered in partial completion of the full qualification Certificate III in Public Safety (Community Safety) (Release 1)

### Course duration

2-2.5 hours – includes assessment

### Assessment criteria

Assessment is competency based.

The student's performance is assessed on satisfactory completion of the required assignments and workshops (in-class assessment activities).

### Students support

One-on-one support is also available on request.

### Course delivery

This program is ONLY available through:

A face to face session requiring the completion of 2 main assessment activities:

**Part A: Knowledge;** Questioning (Written & Verbal)

**Part B: Skills;** Structured Activity (Practical Demonstration)

Both of which will be completed on the day of training.

\* For submission and course dates refer to the course timetable [here](#).

### Venue

At your site where we can use your systems and procedures, a space to accommodate attendees and an outside area, preferably flat and at least the size of 3 car park. If you have these facilities, it could be more cost effective for you, please contact us for more details.

**OR** Those attending our Public Course, this is at **TIME Education & Training**, 83-87 Henley Beach Rd, Mile End SA 5031. Clients who wish to hold an 'exclusive to them' course, hire fees will apply.

## Minimum entry requirements

There are no prerequisites for this unit.

However, there are Language, Literacy & Numeracy (LLN) requirements for this training which include:

- Language; The ability to relate to a range of people from a range of cultural, linguistic, social and ethnic backgrounds, and a range of physical and intellectual abilities clearly and concisely under sometimes stressful/pressured situations
- Literacy; The ability to read and interpret written information and seek clarity where unsure. Writing is required to the level of completing required workplace reports/forms.
- Numeracy; The ability to determine possible emergency response time frames and to calculate the times it would take to act upon a small workplace emergency.

The foundation skills are not included as part of the courses. AFS recommends a minimum year 10 or equivalent of schooling prior to commencement of the course.

## Specific course requirements

- Enclosed shoes and neat casual or work clothing is advised.
- The practical session can be viewed as physically challenging, therefore participants should be reasonably fit and able to lift and carry fire extinguishers.
- Any attendees with conditions, such as asthma or other chest complaints, are advised that the smoke can affect you.
- This practical component involves live fire (weather permitting) & some bending, lifting and stretching; long hair is to be tied back.
